Dear Ms. Osovsky,

This letter will act as Nia Impact Capital's formal withdrawal of its shareholder resolution submission to Sarepta Therapeutics, Inc. (Sarepta).

The resolution requested that Sarepta publish a report assessing its diversity and inclusion efforts, disclosing the process that the Board follows for assessing the effectiveness of its programs and any goals, metrics, and trends related to its promotion, recruitment and retention of protected classes of employees.

We are withdrawing this resolution as Sarepta has made a commitment to increase the publicly available information on its diversity and inclusion practices, including the release of some high-level data related to metrics and trends. We are pleased with this beginning, and expect to continue working with Sarepta to increase the level of transparency it proves investors about its workplace equity practices.

We look forward to future conversations with the Sarepta team on this important topic area, including our planned conversation in late summer, 2020, around the company's build-out of its diversity and inclusion reporting. We look will also forward to hearing how its review of the GEN and Emerging Women programming goes, including any engagement it may undertake with these organizations.

Sincerely,

A handwritten signature in black ink that reads "Kristin Hull". The signature is written in a cursive, flowing style.
